

SIMULATION & MONITORING REQUESTS

Skating Clubs and Skating Schools can submit a request for a Simulation or Monitoring session.

Simulations/Monitoring sessions are to be requested by completing the Simulation/Monitoring Request Form by [Clicking Here](#).

Requests for Simulations/ Monitoring will be processed as they are received and must be submitted at least 4 weeks in advance. Requests that do not follow the minimum 4-week guidelines could be denied.

Submitting the Simulation/ Monitoring Request Form with requested dates and times does not guarantee the monitoring/simulation day will take place on the requested date(s). A BC/YT Section representative will be in contact with the Skating Club/Skating School to confirm the dates and further details.

Any questions regarding the BC/YT Section Simulation/ Monitoring Request Form can be sent to bcytsection@skatinginbc.com
